TANZANIA FERTILIZER AND SOIL HEALTH STRATEGY (2024-2030)

1 Promoting Fertilizer Availability

Indicator	Baseline 2019/20	Target, 2030
Importation dependency	90%	40%
Domestic supply	580,000	1.6 mil tons

2 Promoting Fertilizer Accessibility

Indicator	Baseline 2019/20	Target, 2030
Number of agro-dealers	3,000	12,000 (at least 1 per every village in Tanzania)
Markup margin-Ratio of farmer domestic price per ton to global price per ton	1.3	0.8
Transport cost share in the cost build up	13%-19%	Less than 10%
Laboratory analysis	3-4 weeks	7-10 days
TBS analysis	4-8 weeks	1-2 weeks

3 Promoting Fertilizer Utilization

Indicator	Baseline 2019/20	Target, 2030
Area under inorganic fertilizer application	1.5 mil ha	5 mil ha
Farmers using fertilizer	24%	50%
Soil testing and mapping for better soil health management	20%	100%
Fertilizer application	24kg/ha	60kg/ha
Farmers visited by extension services	7%	60%

Source: Ag Census 2019/20

4 Promoting Fertilizer Stability

Indicator	Baseline 2019/20	Target, 2030
Leveraging Financing	Limited affordable financing packages	Developed and operationalized innovative fertilizer financing mechanisms suitable for various players along the fertilizer value chain
Credit guarantee	Limited knowledge and innovations on acceptable collateral	Trade credit guarantees developed by the Africa Fertilizer Financing Mechanism
Fertilizer information system	Limited access to digital information platforms and databases on fertilizer at different value chain nodes	Fertilizer information system and databases linked to the NBS
Price stabilization fund	High fertilizer prices and domestic transaction costs	Developed guidelines and operationalized fertilizer price stabilization fund

Expected Outcomes

- ✓ *Enhanced agricultural production and double productivity*
 - *Cereals, pulses and oilseed productivity from 1.2ton/ha to 2.4ton/ha by 2030*
- ✓ *Tanzania positioned as a regional hub for fertilizer trade and manufacturing*
- ✓ *Enhanced agricultural and economic transformation*

Executive Director
